MUTUAL FUND INVESTMENTS ARE SUBJECT TO MARKET RISKS, READ ALL SCHEME RELATED DOCUMENTS CAREFULLY.

Mission: To be the wealth creator for every Indian

Vision: To be the most respected asset manager in the world

GLOSSARY

Sharpe Ratio

Sharpe Ratio is a risk to reward ratio, it measures portfolio returns generated in excess to the investment in risk-free asset, for per unit of total risk taken. While, positive Sharpe ratio indicates, portfolio compensating investors with excess returns (over risk-free rate) for the commensurate risk taken; negative Sharpe ratio indicates, investors are better off investing in risk-free assets

Beta

Beta (β) of a portfolio is a number indicating the relation between portfolio returns with that of the market index i.e. it measure the volatility, or systematic risk, of a portfolio in comparison to the market as a whole.

Standard Deviation

A statistical measure that defines expected volatility/risk associated with a portfolio. This explains the variation/deviation from the average returns delivered by the portfolio. A higher standard deviation means higher volatility (risk) and a lower standard deviation means lower volatility.

Total Expense Ratio

Total expense ratio (TER) means the ratio of total of all expenses charged to the investors of the scheme to the total asset under management of the scheme.

Tracking Error

Tracking error indicates how closely the portfolio return is tracking the benchmark Index return. It measures the deviation between portfolio return and benchmark index return. A lower tracking error indicates portfolio closely tracking benchmark index and higher tracking error indicates portfolio returns with higher deviation from benchmark index returns.

Tracking Difference

Tracking difference refers to the annualized difference of returns between the index or goods and the NAV of the ETF/ Index Fund. It is calculated based on point to point returns over various periods.

Portfolio Turnover Ratio

Portfolio Turnover Ratio is the percentage of a fund's holdings that have changed in a given year. This ratio measures the fund's trading activity, which is computed by taking the lesser of purchases or sales and dividing by average monthly net assets

HOW TO READ FACTSHEET

Fund Manager

An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.

Application Amount for Fresh Subscription

This is the minimum investment amount for a new investor in a mutual fund scheme.

Minimum Additional Amount

This is the minimum investment amount for an existing investor in a mutual fund scheme.

SIP

SIP or systematic investment plan works on the principle of making periodic investments of a fixed sum. It works similar to a recurring bank deposit. For instance, an investor may opt for an SIP that invests Rs 500 every 15th of the month in an equity fund for a period of three years.

NAV

The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.

Benchmark

A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the NIFTY, SENSEX, BSE200, BSE500, 10-Year Gsec.

Exit Load

Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is reduced from the prevailing NAV at the time of redemption. The investor will receive redemption proceed at net value of NAV less Exit Load. For instance, if the NAV is Rs. 100 and the exit load is 1%, the investor will receive Rs. 99.

Standard Deviation

Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.

Sharpe Ratio

The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.

Beta Ratio (Portfolio Beta)

Beta is a measure of an investment's volatility vis-a-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.

Average portfolio PE (Average P/E)

It is price to earnings ratio of the stocks calculated for the entire portfolio on a weighted average basis.

Average portfolio price to book ratio (Average P/BV)

It is price to book value of the stocks calculated for the entire portfolio on a weighted average basis.

Average portfolio dividend yield (Average Dividend Yield)

It is dividend yield of the stocks calculated for the entire portfolio on a weighted average basis.

Net Equity

Net equity level is the net equity exposure percentage adjusted for any derivative positions in stocks or index for hedging or rebalancing purpose.

R Squared

It is a statistical measure of how closely the portfolio returns are correlated with its benchmark.

AUM

AUM or assets under management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.

Holdings

The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments/securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.

Nature of Scheme

The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.

Revisiting the Realty Sector: Steady Fundamentals with Moderating Valuations

Key Highlights:

- While the Nifty Realty Index has undergone a time and price correction since mid-CY2024, fundamentals have stayed resilient over this period.
- Residential sales and premium housing demand have remained strong, while office vacancies across major cities have fallen to multi-year lows.
- The Nifty Realty Index's P/B ratio has declined to slightly below its 5-year average, potentially offering a more favourable entry point for long-term investors.

India's real estate sector is on a strong long-term trajectory, supported by rising urbanization, growing disposable incomes and policy reforms. Demand for urban housing continues to rise, driven by an expanding middle-income population and increasing demand for premium offerings. Earlier reforms implemented by the Government including the Real Estate Regulation and Development Act (RERA) and the Goods and Services Tax (GST) reforms have significantly improved transparency, thereby strengthening investor confidence.

The industry is poised for further growth with a joint study by KPMG and the National Real Estate Development Council (NAREDCO) projecting that the industry will grow Rs. 88 lakh crores (US\$ 970 billion) by 2030, more than tripling from an estimated Rs. 26.4 lakh crores (US\$ 290 billion) in 2025 (Source: IBEF, KPMG). Over the long term, real estate is expected to remain instrumental in job creation and infrastructure development, with strong linkages to sectors such as cement and steel. Against this backdrop, we evaluate recent fundamental developments and discuss how investors can gain exposure to the future growth of the sector.

Fundamentals steady across residential and commercial segments

Housing sales YoY % (value; trailing 3-month basis)

Volume growth YoY % by ticket size > Rs. 1.5 cr. (trailing 3-month basis)

Source: Nuvama Institutional Equities. As on Jun 30, 2026

Residential Market: While the Nifty Realty Index has undergone a price correction since mid-2024, underlying fundamentals have remained resilient in the residential segment. The growth rate of housing sales (YoY% change in value, trailing 3-month basis) has stayed broadly positive over the last 2 years. There was a brief period of negative growth towards the end of CY2025, but sales recovered in H1 2026. This demonstrates resilience of the real estate market, as the recovery and stabilization have occurred despite the West Asia conflict. Furthermore, the volume growth for homes with ticket size > Rs. 1.5 cr. has remained positive since mid-CY 2024. This suggests the premiumization trend in the real estate segment is continuing at a healthy pace, potentially creating a multi-year tailwind for companies which cater to the affluent segment. Several of these companies are constituents of the Nifty Realty Index.

Office leasing market - Top 7 cities

Source for various data points: Bloomberg, NSDL, CMIE, RBI, Kotak Institutional Research, World Bank, Daily valuation provided by ICRA/CRISIL.

Market Review continued on next page

Office vacancies - Top 7 cities

Source: Nuvama Institutional Equities. As on Jun 30, 2026

Commercial Real Estate Market: The commercial real estate market has remained strong, with office leasing vacancies dropping to a multi-year low. The fall in vacancy rates has been broad-based across major cities. Net absorption of commercial properties has exceeded supply for 9 of the last 12 quarters (data as of Q2CY26. Source: Nuvama Institutional Equities), highlighting strong demand conditions.

Index valuations have moderated over the last 2 years

Price to Book ratio of Nifty Realty Index (x)

Source: Bloomberg, internal calculations. As on Jul 31, 2026

The Nifty Realty Index's P/B ratio peaked at 6.50x in H1 2024 and has steadily declined since then. At the end of July 2026, the P/B ratio stood at 4.06x, slightly below the 5-year P/B of 4.27x. With valuations closer to long-term averages, it could represent a better entry point for patient long-term investors who wish to deploy lumpsum capital. It could also be appropriate for new and existing SIP investors to continue their investments to accumulate additional units at relatively moderate valuations

The Nifty Realty TRI has outperformed the Nifty 500 TRI over 3, 5, 7, and 10-year horizons

Return Periods	CAGR*		Standard Deviation	
	Nifty Realty TRI	Nifty 500 TRI	Nifty Realty TRI	Nifty 500 TRI
1 year	-0.7%	3.4%	26.3%	14.2%
3 year	17.1%	12.3%	27.5%	14.3%
5 year	18.1%	12.5%	28.1%	14.5%
7 year	19.4%	15.8%	29.9%	17.6%
10 year	16.3%	13.6%	29.1%	16.2%
15 year	8.9%	13.0%	31.5%	16.2%

Heatmap Key

Rank 1

Rank 2

Source: NSE Indices Ltd. and internal calculations. As on Jul 31, 2026. **Past performance may or may not be sustained in the future and is not a guarantee of any future returns. HDFC AMC/Mutual Fund is not guaranteeing or promising or forecasting any returns.** *CAGR: Compounded Annual Growth Rate, TRI - Total Returns Index.

For example, The Nifty Realty TRI has returned 16.3% CAGR over the last 10 years, compared to 13.6% for the Nifty 500 TRI over the same period (data as of Jul 31, 2026). However, it is worth noting that these higher returns have come with higher risk as well.

Conclusion

India's real estate sector continues to progress on a robust long-term trajectory supported by rising urbanization and higher disposable incomes. Residential markets remain healthy, with premium housing emerging as a powerful structural theme. Commercial markets are also showing strength, evidenced by reduced vacancies and steady leasing traction across major metros. Additionally, valuations for the Nifty Realty Index are slightly below its 5-year average. Investors seeking to gain exposure to the real estate sector may consider investing in the HDFC Nifty Realty Index Fund®.

Returns greater than 1 year are compounded annualized (CAGR). For performance of other schemes managed by Nandita Menezes & Arun Agarwal, please refer page 71. Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. For Performance of Direct Plan, refer page 75 to 79.

^Past performance may or may not be sustained in future and is not a guarantee of any future returns. Load is not taken into consideration for computation of performance.

For performance details of Direct Plan, refer page 75 to 79

\$\$\$ EXIT LOAD : (i) No Exit Load shall be levied for switching between Plans / Options within the Scheme. However, exit load will be applicable if the units are switched-out / redeemed from the Scheme within the exit load period from the initial date of purchase. (ii) No Exit load will be levied on bonus Units and on units allotted on Re-investment of Income Distribution cum Capital Withdrawal. (iii) No Exit load will be levied on Units allotted in the Target Scheme under the Transfer of Income Distribution cum Capital Withdrawal (IDCW) Plan Facility (TIP Facility). (iv) In case of Systematic Transactions such as Systematic Investment Plan (SIP), Flex Systematic (Flex STP), HDFC Swing Systematic Transfer Plan (Swing STP), HDFC Flexindex Plan (Flexindex) etc., Exit Load, if any, prevailing on the date of registration / enrolment shall be levied.

Tax Benefits/Consequences: For detailed information on tax benefits/consequences, refer to the Scheme Information Document available on www.hdfcfund.com
Investors should be aware that the fiscal rules / tax laws may change and there can be no guarantee that the current tax position may continue indefinitely. In view of individual nature of tax consequences, each investor is advised to consult his / her own professional tax advisor.

Applicability of Stamp Duty : Effective July 1, 2020, in accordance with the amendment to the Indian Stamp Act, 1899, a stamp duty @ 0.005% of the transaction value would be levied on applicable mutual fund purchase transactions (including transactions carried through stock exchanges and depositories for units in demat mode). Thus, the number of units allotted on all the applicable mutual fund transactions would be reduced to the extent of levy of stamp duty. Kindly refer to FAQs on Stamp Duty, for details on the nature of transactions and the rate of levy of stamp duty available on our website

#65% Nifty 50 TRI + 22.5% Nifty Composite Debt Index + 10% Domestic Price of Gold + 2.5% Domestic Price of Silver ##Nifty 50 Index (TRI).

The Scheme formerly, a debt oriented hybrid fund, has undergone change in Fundamental attributes and become a multi asset fund investing in equities, debt and gold related instruments. Accordingly, the Scheme's benchmark and additional benchmarks have also changed. Hence, the past performance of the Scheme since inception till May 22, 2018 may not strictly be comparable with those of the new benchmark and the additional benchmark. Scheme performance may not strictly be comparable with that of its Additional Benchmark in view of hybrid nature of the scheme where a portion of scheme's investments are made in debt instruments and gold related instruments.

Performance has been computed using values of the concerned benchmarks. From inception till December 31, 2017, the benchmark was CRISIL MIP Blended Index. It was then revised to CRISIL Hybrid 85+15 Conservative Index from January 1, 2018 to March 27, 2018, and to NIFTY 50 Hybrid Composite Debt 15:85 Index from March 28, 2018 to May 22, 2018. Between May 23, 2018 and July 25, 2023, the benchmark comprised 90% NIFTY 50 Hybrid Composite Debt 65:35 Index + 10% Domestic Price of Gold. From July 26, 2023 to December 9, 2025, it was 65% NIFTY 50 TRI + 25% NIFTY Composite Debt Index + 10% Domestic Price of Gold. Effective December 10, 2025, the benchmark is 65% NIFTY 50 TRI + 22.5% NIFTY Composite Debt Index + 10% Domestic Price of Gold + 2.5% Domestic Price of Silver.

#NIFTY 50 Hybrid Composite Debt 50:50 Index (Total Returns Index) ##Nifty 50 Index (TRI).

Scheme performance may not strictly be comparable with that of its Additional Benchmark in view of balanced nature of the scheme where a portion of scheme's investments are made in debt instruments.

Performance of close-ended schemes, being close-ended in nature, is not strictly comparable with that of open-ended schemes since the investment strategy for close-ended schemes is primarily buy and hold whereas open-ended schemes are actively managed

Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns greater than 1 year period are compounded annualized (CAGR). Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. Load is not taken into consideration for computation of performance. Since Inception Date = Date of First allotment in the Scheme / Plan. N.A.: Not Available For Riskometer of the Schemes and Benchmark's, refer page 80 to 92.

#65% Nifty 50 TRI + 22.5% Nifty Composite Debt Index +10% Domestic Price of Gold + 2.5% Domestic Price of Silver ##Nifty 50 Index (TRI).								
The Scheme formerly, a debt oriented hybrid fund, has undergone change in Fundamental attributes and become a multi asset fund investing in equities, debt and gold related instruments. Accordingly, the Scheme's benchmark and additional benchmarks have also changed. Hence, the past performance of the Scheme since inception till May 22, 2018 may not strictly be comparable with those of the new benchmark and the additional benchmark. Scheme performance may not strictly be comparable with that of its Additional Benchmark in view of hybrid nature of the scheme where a portion of scheme's investments are made in debt instruments and gold related instruments.								
Performance has been computed using values of the concerned benchmarks. From inception till December 31, 2017, the benchmark was CRISIL MIP Blended Index. It was then revised to CRISIL Hybrid 85+15 Conservative Index from January 1, 2018 to March 27, 2018, and to NIFTY 50 Hybrid Composite Debt 15:85 Index from March 28, 2018 to May 22, 2018. Between May 23, 2018 and July 25, 2023, the benchmark comprised 90% NIFTY 50 Hybrid Composite Debt 65:35 Index + 10% Domestic Price of Gold. From July 26, 2023 to December 9, 2025, it was 65% NIFTY 50 TRI + 25% NIFTY Composite Debt Index + 10% Domestic Price of Gold. Effective December 10, 2025, the benchmark is 65% NIFTY 50 TRI + 22.5% NIFTY Composite Debt Index + 10% Domestic Price of Gold + 2.5% Domestic Price of Silver.								

Performance of close-ended schemes, being close-ended in nature, is not strictly comparable with that of open-ended schemes since the investment strategy for close-ended schemes is primarily buy and hold whereas open-ended schemes are actively managed

Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns greater than 1 year period are compounded annualized (CAGR). Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. Load is not taken into consideration for computation of performance. Since Inception Date = Date of First allotment in the Scheme / Plan. N.A.: Not Available For Riskometer of the Schemes and Benchmark's, refer page 80 to 92.

#BSE India Sector Leaders Index (TRI) ##NIFTY 50 (TRI). Simple annualized returns have been provided as per the extant guidelines since the scheme has completed 6 months but not 1 year. However, such returns may not be representative. Absolute returns of the Scheme for the 6 month period is 0.92%.								

Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns greater than 1 year period are compounded annualized (CAGR). Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. Load is not taken into consideration for computation of performance. Since Inception Date = Date of First allotment in the Scheme / Plan. N.A.: Not Available For Riskometer of the Schemes and Benchmark's, refer page 80 to 92.

#CRISIL Liquid Overnight Index ##CRISIL 1 Year T-Bill Index. Returns less than 1 year period are simple annualized.

Past performance may or may not be sustained in future and is not a guarantee of any future returns. Returns greater than 1 year period are compounded annualized (CAGR). Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. Load is not taken into consideration for computation of performance. Since Inception Date = Date of First allotment in the Scheme / Plan. N.A.: Not Available For Riskometer of the Schemes and Benchmark's, refer page 80 to 92.

BENCHMARK AND SCHEME RISKOMETERS

Fund Name & Benchmark	Product Labelling (This product is suitable for investors who are seeking ~)	Scheme Riskometer	Benchmark Riskometer
HDFC BSE Sensex Index Fund BENCHMARK: BSE SENSEX Index (TRI)	- Returns that are commensurate with the performance of the BSE SENSEX Index (TRI), subject to tracking errors over long term. - Investment in equity securities covered by the BSE SENSEX Index (TRI).	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC Nifty 50 Index Fund BENCHMARK: Nifty 50 Index (TRI)	- Returns that are commensurate with the performance of the NIFTY 50 Index (TRI), subject to tracking errors over long term - Investment in equity securities covered by the NIFTY 50 Index (TRI).	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC NIFTY Next 50 Index Fund BENCHMARK: NIFTY Next 50 Total Returns Index (TRI)	- Returns that are commensurate (before fees and expenses) with the performance of the NIFTY Next 50 Index (TRI) over long term, subject to tracking error - Investment in securities covered by the NIFTY Next 50 Index (TRI).	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC NIFTY Midcap 150 Index Fund BENCHMARK: NIFTY Midcap 150 Index (TRI)	- Returns that are commensurate (before fees and expenses) with the performance of the NIFTY Midcap 150 Index (TRI) over long term, subject to tracking error. - Investment in securities covered by the NIFTY Midcap 150 Index (TRI)	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC NIFTY Smallcap 250 Index Fund BENCHMARK: NIFTY Smallcap 250 Index (TRI)	- Returns that are commensurate (before fees and expenses) with the performance of the NIFTY Smallcap 250 Index (TRI), over long term, subject to tracking error. - Investment in securities covered by the NIFTY Smallcap 250 Index (TRI).	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC BSE 500 Index Fund BENCHMARK: BSE 500 Index (TRI)	- Returns that are commensurate (before fees and expenses) with the performance of the BSE 500 Index (TRI) over long term, subject to tracking error - Investment in securities covered by the BSE 500 Index (TRI).	 The risk of the scheme is very high	 The risk of the benchmark is very high
HDFC NIFTY200 Momentum 30 Index Fund BENCHMARK: NIFTY200 Momentum 30 Total Returns Index (TRI)	- Returns that are commensurate (before fees and expenses) with the performance of the NIFTY200 Momentum 30 Index (TRI) over long term, subject to tracking error. - Investment in equity securities covered by the NIFTY200 Momentum 30 Index (TRI)	 The risk of the scheme is very high	 The risk of the benchmark is very high

NIL does not make any representation or warranty, express or implied, to the owners of the Product(s) or any member of the public regarding the advisability of investing in securities generally or in the Product(s) particularly or the ability of the NIFTY Indices to track general stock market performance in India. The relationship of NIL with HDFC Asset Management Company Limited ("the Issuer/Licensee") is only in respect of the licensing of the Indices and certain trademarks and trade names associated with such Indices which is determined, composed and calculated by NIL without regard to the Issuer /Licensee or the Product(s). NIL does not have any obligation to take the needs of the Issuer/Licensee or the owners of the Product(s) into consideration in determining, composing or calculating the NIFTY Indices. NIL is not responsible for or has participated in the determination of the timing of, prices at, or quantities of the Product(s) to be issued or in the determination or calculation of the equation by which the Product(s) is to be converted into cash. NIL has no obligation or liability in connection with the administration, marketing or trading of the Product(s).

HDFC CRISIL-IBX Financial Services 3-6 Months Debt Index Fund and HDFC CRISIL-IBX Financial Services 9-12 Months Debt Index Fund
CRISIL Disclaimer and Copyright Notice: "© CRISIL Limited. All Rights Reserved Each CRISIL Index (including, for the avoidance of doubt, its values and constituents) is the sole property of CRISIL Limited (CRISIL). No CRISIL Index may be copied, retransmitted or redistributed in any manner. While CRISIL uses reasonable care in computing the CRISIL Indices and bases its calculation on data that it considers reliable, CRISIL does not warrant that any CRISIL Index is error-free, complete, adequate or without faults. Anyone accessing and/or using any part of the CRISIL Indices does so subject to the condition that: (a) CRISIL is not responsible for any errors, omissions or faults with respect to any CRISIL Index or for the results obtained from the use of any CRISIL Index; (b) CRISIL does not accept any liability (and expressly excludes all liability) arising from or relating to their use of any part of CRISIL Indices."

NIL is engaged in the business of developing, constructing, compiling, computing and maintaining various equity indices. The relationship of NIL to HDFC AMC is only in respect of the rights granted to use certain trademarks and trade names of the Index in connection with the utilisation of the Index data relating to such Index. The Index is determined, composed and calculated by NIL without regard to HDFC AMC. NIL has no obligation to take the needs of HDFC AMC into consideration in determining, composing or calculating the NIFTY Indices.

NIL do not guarantee the accuracy and/or the completeness of NIFTY Indices or any data included therein and they shall have no liability for any errors, omissions, or interruptions therein. NIL make no warranty, express or implied, as to results to be obtained by HDFC AMC or any other person or entity from the use of NIFTY Indices or any data included therein. NIL make no express or implied warranties, and expressly disclaim all warranties of merchantability or fitness for a particular purpose or use with respect to the Index or any data included therein. Without limiting any of the foregoing, NIL expressly disclaim any and all liability for any damages or losses arising out of the use of NIFTY Indices or any data included therein by any third party, including any and all direct, special, punitive, indirect, or consequential damages (including lost profits), even if notified of the possibility of such damages. An investor, by subscribing or purchasing an interest in the Product(s), will be regarded as having acknowledged, understood and accepted the disclaimer referred to in Clauses above and will be bound by it.

The Schemes HDFC NIFTY PSU Bank ETF, HDFC NIFTY Private Bank ETF, HDFC NIFTY Realty Index Fund, HDFC NIFTY Bank ETF & HDFC BSE India Sector Leaders Index Fund being thematic/Sectoral in nature carries higher risks versus diversified equity mutual funds on account of concentration and theme/sector specific risks.
